

LA MARE WINE ESTATE

— JERSEY —

GREEN DELEGATES PACKAGE

La Mare Wine Estate is the perfect place to host your meetings and events with a sustainable focus. The estate offers a variety of reception rooms catering for up to 150 delegates amongst the natural beauty of award-winning sustainable vineyards, organic orchards and meadows and exquisitely manicured gardens.

As part of our commitment to sustainability and green tourism, we are assessed under the *Green Tourism* scheme, the leading sustainable tourism certification scheme in the UK. This covers People (health & wellbeing, community, equality and diversity) , Place (experiences, food & drink and biodiversity) and Planet (energy, waste, water, carbon and chemicals). We are delighted to hold a Gold award and are working hard to make positive actions every day to do more across all of these goals.

We are certified carbon neutral by LEAF (Linking Environment And Farming) and certified with the Organic Soil Association and the Red

Tractor Association. We are also proud to be Business Leaders in Jersey Government's Eco-Active Programme.

EXCEPTIONAL SERVICE

Crafting the perfect event, like crafting the perfect wine, requires expertise and attention to detail. Matured over time, each ingredient must be just right and timed to perfection. When you book with us, a senior member of our exceptional events team will be on hand every step of the way, providing support and advice, and helping fine-tune your event.

EASY TO REACH

La Mare Wine Estate is nestled in the heart of the St Mary countryside. To find the estate, head for St. Mary and follow the signs to the Devil's Hole where you will find the tourism signs for the estate.

SUSTAINABLE TRAVEL PLANNING

La Mare Wine Estate is served by bus routes 5 or 7 from Liberation Station. Buses run regularly to and from the estate and stop right outside the entrance.

There are bike stands for delegates to easily lock their bikes and there is a charge point for electric cars on request.

We also recommend organisers create a WhatsApp group for car share, to reduce the carbon footprint of the event.

The Event's Team is on hand to help you with advice on how best to reach us by public transport, active travel or if you would like us to help you organise a coach.
